

Other Screenings

Based on the Bright Futures Periodicity Schedule there are other times when providers are encouraged to provide risk assessment. The following screenings are provided as additional resources for physicians.

Highmark Health Options does not endorse or require any specific screening tool for screening purposes. This list is not all-inclusive, and other validated screening tools may be available. Each practice is encouraged to utilize a screening tool that is best suited for their individual situation.

Validated Screening Tool	Age for Use	Description	Administration Time Scoring information (if available)	Where to find additional information / purchase
Psychosocial and Social-emotional Screening Tools				
Early Childhood Screening Assessment (ECSA)	18-60 months	ECSA is a screener for emotional/behavioral problems in young children, with additional items assessing parent emotional functioning.	10 to 15 minutes	http://www.infant institute.org/measures-manuals/
Strengths and Difficulties Questionnaire (SDQ)	3-16 years	The SDQ is a brief behavioral screener that has been translated into more than 80 languages.	10 minutes	http://www.sdqinfo.org/
Survey of Well-Being of Young Children (SWYC)	0-60 months	The SWYC was created to provide a screening instrument that is comprehensive, including cognitive, language, motor, and social-emotional development as well as family risk factors (parental depression, conflict, or substance abuse, and hunger).	10 minutes	https://www.floatinghospital.org/The-Survey-of-Wellbeing-of-Young-Children/Overview.aspx
