

PROVIDER UPDATE

An Update for Highmark Health Options Providers and Clinicians

Bilateral Procedures

Due to system processing issues, we previously advised providers to bill bilateral procedures with modifier 50 and 2 units. This issue has been corrected as of 12/14/2018. For DOS 12/14 and later please bill bilateral procedures as the State instructs with modifier 50 and 1 unit. Billing with 2 units will cause the claim to deny.

Thank you,
