HIGHMARK HEALTH OPTIONS LAUNCHES COMMUNITY REPOSITORY

REPOSITORY ENCOURAGES HEALTHY BEHAVIORS AND PREVENTIVE CARE

Highmark Health Options is pleased to announce the launch of its new "Community Repository." This web-based search platform provides resource assistance to members by encouraging preventive care and detailing many other services.

A key objective of the repository is engaging members in healthy behaviors through health education and locating programs for wellness and disease self-management. With access to up-to-date and comprehensive web-based resources, members can be connected to a wide array of services previously unknown to them, like: behavioral health, food banks, shelters and housing, child care, clothing and furniture, disease education, exercise and nutrition resources, legal assistance, transportation assistance, pastoral care, and financial assistance with utilities.

ABOUT THE REPOSITORY

The repository is available not only to members, but also to providers and Highmark Health Options staff. Searches can be conducted by:

- Resources by name
- Activity type
- Location and eligibility
- Registration requirements

LEARN MORE

Highmark Health Options is expanding on the October 2016 Provider Forums and will soon be posting a tutorial for providers on accessing and navigating the repository.

We hope you and your staff find this comprehensive website user-friendly and an added value in patient care. For more information, please call Provider Services at 1-844-325-6251.
