

# PROVIDER UPDATE

## Specialty Pharmacy Management Update

**Beginning September 1, 2023**, Highmark Health Options is implementing a new specialty pharmacy program for select specialty pharmacy drugs. Providers can find the complete list of specialty medications at [hho.fyi/med-info](https://hho.fyi/med-info).

You and your Highmark Health Options' patients may notice new specialty pharmacies dispensing their medication(s). Specialty medications may require additional monitoring and care. The specialty pharmacy will coordinate with the prescriber office to obtain the prescription.

The program:

- Facilitates a seamless match between specialty pharmacies and authorized specialty drug referrals based on quality and cost.
- Enables fair access to specialty drug referrals for accredited, in-network specialty pharmacy providers.

For more information on the program, visit [hho.fyi/med-info](https://hho.fyi/med-info).
