FOR HIGHMARK HEALTH OPTIONS PROVIDERS

JAN. 6, 2017

## ATTN. PCPS: WATCH YOUR MAIL FOR NEW PHYSICIAN PORTFOLIO

Happy New Year! Highmark Health Options is excited to introduce a new report developed for PCPs called the Physician Portfolio. The State of Delaware Division of Medicaid and Medical Assistance requires us to offer you a report of your quality outcomes with a comparison to your peer group in an effort to help improve the care and safety of your patients, our members.

The portfolio includes measures related to preventive care, utilization and prescribing patterns and compares you to your specific peer group: Family Practice, Internal Medicine or Pediatrics. **Please note that neither the Physician Portfolio nor the measures it contains are linked to any reimbursement or incentive program. The Physician Portfolio is also separate from any other incentive program in which your practice may be enrolled, such as True Performance.**

We are mailing the Physician Portfolios now, so please watch your incoming mail. We hope you find this information useful and we look forward to collaborating with you to enhance this report moving into 2017.

If you have any questions, please contact your Highmark Health Options Provider Account Liaison. As always, we appreciate the hard work you do every day to care for Highmark Health Options members.
