

PROVIDER UPDATE

Clinical Quality Feedback (CQF) Loop Update for QN72: Timeliness of Prenatal Care

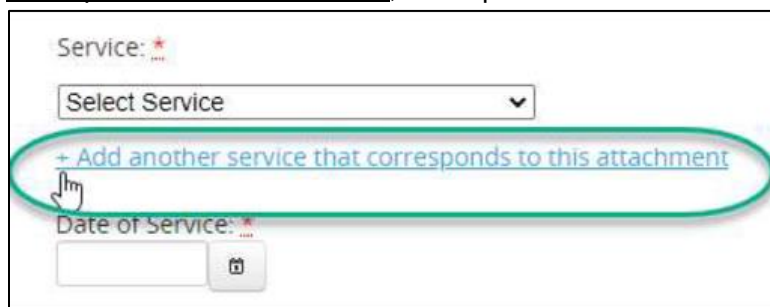

Primary Care Physicians (PCPs) and OB/Gyns participating in **True Performance Medicaid** and providing care for Highmark Health Options Medicaid members can close gaps via the Clinical Quality Feedback (CQF) loop for QN72: Timeliness of Prenatal Care (TOPC).

The CQF provides a second option for submitting PCP-obtained TOPC services meeting inclusion criteria. The CQF option is available for PCPs participating in True Performance Medicaid to submit clinical documentation for gap closure when not originally billed and compliance criteria is met.

To make a comprehensive TOPC entry in CQF, two separate submissions – also called a duplicate entry – are required. PCPs should submit the same document(s) to both services.

1. Submit under service “Pregnancy Diagnosis”
2. Submit under service “Pregnancy Care Visit”

To submit a duplicate TOPC entry in CQF, click on the blue hyperlink [+Add another service that corresponds to this attachment](#), then upload the second service.

Once a duplicate TOPC entry has been submitted, the CQF homepage will update to include the service as follows for each patient:

Member	Service	Measure Type	Submitted	Status
Same Member	Prenatal Care Visit	HEDIS	Same submission date	Accepted
	Pregnancy Diagnosis	HEDIS		Accepted

If you have specific CQF questions, contact your clinical transformation consultants. For additional questions, call Provider Services at 1-844-325-6251, Monday–Friday, 8 a.m. to 5 p.m.
