

PROVIDER UPDATE

Effective July 30, 2023, claims without the billing and rendering taxonomy will be denied.

Beginning on July 30, 2023, providers **must** populate the billing and rendering taxonomy fields on all claim submissions to receive reimbursement. Failure to populate the billing and rendering taxonomy fields will result in a claims denial.

Highmark Health Options is currently receiving an abundance of submitted claims without a populated taxonomy field. This is a concern that aligns with 21st Century Cures Act requirements.

Questions?
